

Hi Runners:

This email pertains to anyone who is camping, renting equipment, or setting up a crew zone this weekend. I'm sending this to all runners just in case someone needs the information and HASN'T booked camping arrangements yet.

If you do not plan on camping or setting up a crew zone, none of this information is relevant to you.

[Camping/Crew Zone Map](#)

Friday Arrival (Campers & Crew Zones)

As you pull up to the Comp Track Lot, you'll notice that the first two entrances are barricaded off. **DO NOT MOVE ANY BARRICADES FOR ANY REASON!** You can enter the Comp Track Lot in either of the last two entrances (see map).

Before you set up any camping equipment or your crew space, you must check in with Aravaipa Staff so we can assure that you know where to go and where it is off limits. This means you'll have to park in the Runner Parking area (see map), talk to Aravaipa Staff, **AND THEN** head to your camping spot.

Contacts

I'll be on-site all day and managing camper/crew zone check-in. So try to find me (**Aaron Barber**). If I'm not around or happen to get pulled somewhere else (likely), look for **Heidi Allan**. If neither of us are available, the **registration tent** will be able to help you out. We will try our best to be available as campers & crew arrive.

Car Camping & RVs

Once you've received your camping tag, you can set up on the far west edge of the Comp Lot (see map). If you need to exit & re-enter the Comp Lot, please do so the way you came. **DO NOT MOVE BARRICADES.**

Tent Camping

If you plan on camping and are bringing your own tent, follow the same instructions as Cars & RVs, but note that you'll be in a different area (see map).

Crew Zones

Once you've parked and talked to Aravaipa Staff, you will be allowed to drive to the interior of the loop to set up your Crew Zone. We do not have assigned spaces, so please be neighborly. It

gets very windy out there, so tents NEED to be anchored to the ground in some manner. Aluminum tent stakes are NOT a good option as the ground is too hard. Six inch galvanized nails will likely do the trick though... or weights. DO NOT USE ROCKS FROM THE DESERT TO WEIGH DOWN YOUR POP-UPS.

Tent Rentals

If you've rented a tent from Aravaipa, they will be set up for you upon your arrival. Each tent will have a name tag on it. If you've rented a tent, there is no need to check in UNLESS you need to drive up to it to unload gear.

Need a tent or a camping pass?

We can take care of you at bib pickup, but please follow the entry instructions and park in the "Runner Parking" area (see map).

Camping & Crew Zones: Late Arrivals

If you're arriving after 6:00pm on Friday, or early Saturday morning, please reply to this email and we can make arrangements on a case by case basis.

Thank you all!

Aaron Barber
Race Director
